## Work Experience

---

### Conexiom, Connection Developer, London, August 2020 to present

- integrating customer APIs for data validation, and contribute to reusable C# code factories to automate processes.
- Implemented customer specific API calls to a broad range of ERP systems such as P21, SAP and EDI.
- Served as the go-to resource for addressing technical feasibility inquiries and handling escalations.

---

## Skills

**Languages:** C#, .Net, RESTful services, MySQL, GIT

**Experience with:** Visual Studio, Unity, Agile Methodologies, Postman API, DataDog, Microsoft Azure

---

## Education

*University of Nottingham (UK)*

**MSc Computer Science (Distinction)**

**Sep 2018 - Dec 2019**

**BSc. (Honours) Finance, Accounting and Management (2:1)**

**Sep 2015 - Sep 2018**

---

## Projects

**Run it Down** (C#, Unity, Android App)

- Work individually, planned, designed, and published an Android 2D infinite runner game with Unity on Google Play.

Additional projects, video demos and descriptions are available on my website:
