Work Experience

Conexiom, Connection Developer, London, August 2020 - present
- Integrating customer APIs for data validation, and contribution to reuseable C# code factories to document automate processes.
- Building software in .Net/C# using Test Driven Development.
- Implemented customer specific API calls to a broad range of ERP systems such as P21, SAP and EDI.
- Served as the go-to resource for addressing technical feasibility inquiries and handling escalations.
- Worked closely with customer support to respond quickly to user issues, solving them, and reduce the turnaround time of fixes.

Skills
Languages: C#, .Net, MySQL, GIT
Experience with: Visual Studio, Unity, Agile Methodologies, Postman API, DataDog, Microsoft Azure, RESTful services

Education
University of Nottingham

MSc. Computer Science (Distinction)	**Sep 2018 - Dec 2019**
BSc. (Honours) Finance, Accounting and Management (2:1)	**Sep 2015 - Sep 2018**

Projects

Run it Down (C#, Unity, Android App)
- Work individually, planned, designed, and published an Android 2D infinite runner game with Unity on Google Play.

Additional projects, video demos and descriptions are available on my website: kmm764.github.io

Hobbies
Warhammer
- Participate in Warhammer tabletop weekly at Warhammer world, for 40k, AOS, and MESBG, using the 40k app regularly.
- Have an army displayed in Warhammer world
- Own and painted over 15 armies across the three tabletop systems.

Miscellaneous

Driving: Full driving license
